

107/TR/НГ серия, Шаровой кран с удлиненным штоком с конструкцией "шар с цапфой", сварка / сварка, EN (DIN), DN 200-900, стандартнопроходной

A detailed 3D rendering of a stainless steel industrial valve. The valve body is cylindrical with a large circular flange on the left side, featuring a central opening. A vertical stem extends upwards from the top of the valve body, topped with a blue actuator or control mechanism. The actuator has a complex, multi-faceted design with a central vertical rod. The entire assembly is shown against a plain white background.

Не для пара

Technical drawing of the L52 pump assembly showing dimensions W1, W2, D5, D4, and Ø2.
